

# Teunissen/Postma motion: strongly discourage on the import of woody biomass from abroad and do not provide new subsidies for this

<https://www.tweedekamer.nl/kamerstukken/moties/detail?id=2024Z06923&did=2024D15962>

APRIL 18, 2024

The room,  
after hearing the deliberation,

noting that a significant part of the woody biomass in the Netherlands is imported from abroad;

whereas the climate consultation shows that the vast majority of the Dutch population is against importing biomass from abroad;

whereas the import of woody biomass leads to large-scale destruction of nature and its transport over thousands of kilometers requires unnecessary energy;

calls on the government to strongly discourage the import of woody biomass from abroad;  
also calls on the government not to provide new subsidies for woody biomass from abroad,

And proceeds to the order of the day.

Teunissen  
Postma
